## SCHEDULE “C”

### PROJECT

---

The Municipal Fire Protection Grant has been established to provide critical support to municipalities in 2020-21 to offset costs and potential barriers for issues stemming from the COVID-19 pandemic. Such issues include access to training, and equipment or other critical upgrades that are needed at the local level to support virtual inspections.

Ontario’s fire departments vary in size and capacity and they all serve different communities that each present different levels of risk. There is a significant cost to ensure that every department has skilled first responders who are adequately trained and equipped to meet the needs of their community.

Funding could represent the difference in allowing fire departments to train more staff, purchase much needed equipment to allow them to adapt and respond to COVID-19 related risks in their communities in a way that ensures both community and personnel safety.

The use of the one-time 2020-21 Municipal Fire Protection Grant will focus on the needs of municipal fire departments to ensure community safety with a focus on issues that have presented due to the COVID-19 pandemic, including:

- Training to offset the pressures in training as a result of the COVID-19 pandemic.
- Specialty training to respond to the dynamics of the COVID-19 pandemic and the need to ensure fire safety in their communities such as virtual inspections.
- Small improvements to fire department infrastructure, such as accessing high speed internet to support training and virtual inspections.

The fire service has expressed concerns with training and fire code compliance since the start of the pandemic. Some of these concerns include critical inspections being delayed or impacted given the apprehension with entering premises. Similarly, training has been impacted given that fire services have been responding to challenges associated with the pandemic (staffing shortages, increased calls for service, etc.). Many departments continued training online as the Office of the Fire Marshal enhanced its online course availability at the start of the pandemic. This emergency COVID relief funding provides support for increased access to training, support for fire code compliance inspections through virtual inspections, and equipment or other critical upgrades that are needed at the local level to support community risks during the pandemic and the switch to virtual training and inspections.
